

Step 3 Opening Guidelines Indoor Ranges

The provincial government has moved the date up a week for the entering of stage 3, we will enter step 3 on Friday July 16th .

Changes to our allowed limits and restrictions are listed below.

- The indoor range will have all stations opened but due to the need to continue social distancing **a no guest policy will remain in effect for the indoor range.** Masks must be worn at all times while inside, no exceptions.
- Other Indoor facilities such as the clubhouse and upstairs archery range will be allowed groups of up to 25 people. Masks must continue to be worn by anyone inside any indoor facility at East Elgin.
- All outdoor ranges will be fully opened with the exception of the 100m range. We are in the process of replacing the shooting benches but will have all benches in place and all stations opened as soon as possible.
- Guest limits will remain at 1 to help ensure we can all continue to practice social distancing. This will change as more restrictions are relaxed.

Volunteers Needed

We are currently in the process of renewing and adding some new shooting benches on the 100m range and are looking for members with carpentry experience to help out. If you are a member and would like an opportunity to acquire some volunteer hours please write bod@eesa.ca

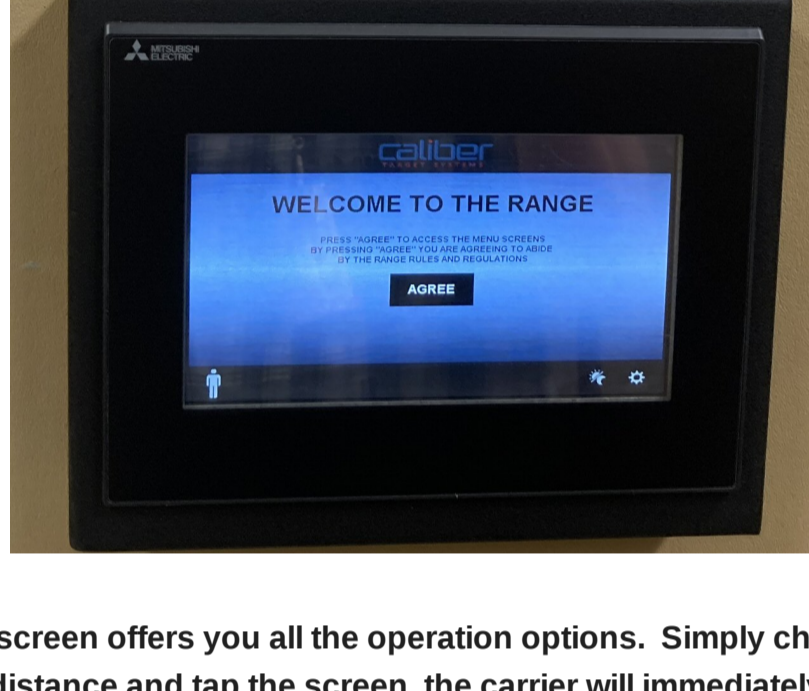

Indoor Range supervised shoots resumed on Sunday July 4th at 7:00pm and will continue every Sunday and Monday evening from 7:00pm until 9:00pm. There is no need to call ahead or make an appt, just come in and you'll be taken in the order you arrived. Please remember not to bring friends or family to supervised shoots as they serve as a distraction. Due to the limitations on the number of people allowed in the range at a time we have to request that members with access refrain from coming to shoot indoors during the supervised shoots schedule.

Indoor Range Target Retrieval System

The indoor handgun range has been upgraded with a brand new target retrieval system. Our old system served the club well but was long overdue for a change.

The new system operates off a touch screen and the operation couldn't be easier.

When you first arrive at your station a touch on the screen will activate it where you'll be greeted with a second screen asking you to agree to abide by all range rules and regulations.

The next screen offers you all the operation options. Simply choose your desired distance and tap the screen, the carrier will immediately move to the distance you chosen. You also have the option of Imperial or metric measurements.

Once you have finished shooting press the home symbol and the carrier will return to it's original position. where the cardboard supporting your target can be removed and returned to the under counter storage area.

Supplied 'T' hangers do not need to be removed unless damaged beyond use. To change the 'T' hanger, call a cease fire, loosen the screw in the rear of the carrier and remove/replace hanger.

Backing support cardboard is connected to hanger using binder clips and can be changed as needed with no need to call a cease fire.

We hope to have this system last as long, or longer, than our previous one did so please help us take care of it through proper usage and respect for club equipment.

Please Remember

- Guests must be supervised and must share a station with the member that brought them.
- To wear and use a holster on club property a member must be certified with either their Black Badge, Idpa certification, or club level holster certification.
- Please DO NOT drive any vehicle on any range
- Currently members are restricted to no guests indoors and 1 guest only all outdoor ranges.

In 21 more days we expect the Provincial Government to further soften restrictions, at that time we will update members via newsletter and our member bulletin board at eesa.ca.

Facility Rentals

Vice President Barry Rawlinson is also our facilities manager interested in renting the club facilities can contact Barry at brawlinson@eesa.ca for rates and availability or submit facility requests through the [club website](http://eesa.ca).
